

Declares a Climate Emergency

Eagerly, Settled Nomads has signed up to [Tourism Declares!](#) An initiative that supports tourism businesses, organizations, and individuals in declaring a climate emergency and taking purposeful action to reduce their carbon emissions as per the advice from the Intergovernmental Panel on Climate Change (IPCC) to cut global carbon emissions to 55% below 2017 levels by 2030.

Settled Nomads is excited to be the first Canadian (non-Indigenous) Tour Operator signatory. We look forward to being a regional leader actively working towards a thriving tourism industry that operates within global limits and promotes well-being through sustainable socio-economic and environmental practices. Settled Nomads is based out of K'jipuktuk, Mi'kma'ki (the ancestral and unceded territory of the Mi'kmaq People), Turtle Island. We are all treaty people.

Like all signatories, Settled Nomads has committed to the following five actions:

1. Develop a 'Climate Emergency Plan' within the next 12 months, which sets out our intentions to reduce carbon emissions over the next decade.
2. Share an initial public declaration of our 'Climate Emergency Plan', and update on progress each year.
3. Accept current IPCC advice stating the need to cut global carbon emissions to 55% below 2017 levels by 2030 in order to keep the planet within 1.5 degrees of warming. We'll ensure our 'Climate Emergency Plan' represents actions designed to achieve this as a minimum, through delivering transparent, measurable, and increasing reductions in the total carbon emissions per customer arising from our operations and the travel services sold by us.
4. Encourage our suppliers and partners to make the same declaration; sharing best practice amongst peers; and actively participate in the Tourism Declares community.
5. Advocate for change. We recognize the need for system change across the industry to accelerate a just transition towards carbon-free tourism.
